1. Is Family Transportation Night a worthwhile activity for your family? Why? Yes = 48

- They learned a lot.
- It was very interesting. (2)
- It was a wonderful night filled with learning and fun!
- Showing new ideas, incorporating ideas learned in class, show possible career choices.
- Very hands on, kids and parents enjoyed.
- The students and parents learned a lot and were able to work together.
- Most definitely! My son wants to be an engineer so it's great to have the activities for him and to meet engineers.
- Very informative. (6)
- Quality time.
- Kids enjoyed it very much. (2)
- It was a nice way to have fun with the kids and learn something.
- A great way to expose kids to career fields in engineering. (3)
- It relates learned skills to life/job skills.
- This teaches all kids how we all get from one place to another or around the world and in jobs they can do.
- Parent and student interaction. Getting girls involved in engineering activities is a great introduction to other math and science.
- Strictly due to my daughter's enjoyment of it.
- We deal with it every day.
- Very much – learning opportunity of unconventional material.
- It was fun!
- My daughter enjoyed the activities and learned.
- So much information and learning. (2)
- They offered a variety of activities, and we learned more about transportation fields.
- Hands-on activity – children friendly.
- Taught them a lot of new things.
- Very entertaining and fun. (2)
- The hands-on activities were wonderful. (2)
- Great interactive fun.
- Indeed – more activities together.
- Kids interact with different kids.
- We like educational outings.
- The children were very enthusiastic about all the information.
- Absolutely - fun, hands-on learning for career choices.
- Absolutely! It introduced and bridged information on everyday living to how it relates to engineers and their jobs.

2. Were the activities for your child age-appropriate? Yes = 48

- Absolutely - even for my 8 year old too.
- We had 2-5th grade children and they loved the activities.
- Our children enjoyed them.
- Presenters were great!
- Great activities to expand their horizons.
- Absolutely!
- Completely!
- 5th grade.

3. How could Family Transportation Night be improved?

- Great – my daughter wanted to complete more of the activities in the cafeteria – we only completed about half of them.
- Longer time in the stations – maybe breaking them into two “stops.”
- Can’t think of anything right now.
- I thought it was very good.
- Great as it was. (2)
- Have it more often. (2)
- Video presentation or brief lecture and the beginning, website links, ideas for kids to do after the presentation, and experts/engineers sharing why they chose their profession/express the importance visually and aurally.
- Longer time so more activities can be done.
- More information on your flyer, and show examples.
- Couldn’t see a lot.
- Good program.
- It should occur a lot earlier in the evening and dismiss earlier.
- Well done!
- Pizza! (2)
- More activities for shorter time.
- No improvement needed.
- I can’t think of anything. The leaders were wonderful and gladly answered our questions.
- Shorter stations.
- We enjoyed everything.
- More activities – do them all. (2)
- More materials to experiment with.
- None – all great!
- The time in the cafeteria should have been increased since there were a lot of tables in that area. We were only about to complete 3 activities.
- It was excellent! No suggestions.
- Maybe an entire day of activities.
- We thought it was extremely good.
- Allow families to choose which activities they’d like to attend.

4. Which activities did you & your family attend?

- | | |
|----------------------|------------------------------|
| (24) Plot Your Path | (27) Five Points Traffic Jam |
| (30) Float Your Boat | (24) Packing Bananas |

Thank you for your response!
